Other: Vercel, AWS, Heroku, Testing (Jest), Zapier & Airtable, Scrum & Kanban

## I'm currently learning:

Data Structures and Algorithms

## Languages

Portuguese, Native

English,  Fluent

# Experience

### Student Leadership Coordinator, Lambda School, Remote

SEPTEMBER 2020 — MAY 2021

- Developed automations and alerts to help the Coordinators in my team manage a pool of ~1.4K students and ~150 teams.
- Collaborated with Engineering to build our database, map predetermined SOPs into workflows, resolve bugs and reduce time spent on manual tasks.
- Created process guides to assist in the training of staff members.
- Facilitated weekly professional skills workshops and helped students navigate team issues.

### EU Program Coordinator, Lambda School, Remote

SEPTEMBER 2019 — SEPTEMBER 2020

Focused on delivering Lambda's Web Program to  ~200 students located in Europe and Africa.

- Worked with a small cross-functional team and managed program schedules by assigning activities to owners.
- Hired, trained, and provided support to 20+ Team Leads who were responsible for student teams.
- Hosted weekly 1:1s, sync meetings and retrospectives to increase visibility into different areas of the program and remove roadblocks.
- Collected regular student feedback to identify areas of improvement within the program by conducting surveys and interviews.
- Coordinated additional student support through PIPs and equipment loans. Also recommended students to hiring partners based on their unique skill sets.

### Section (Cohort) Lead, Lambda School, Remote

APRIL 2019 — JULY 2019

- Led daily stand-ups with a group of 8 Team Leads and the cohort Instructor to discuss student progress.
- Provided regular feedback to Team Leads on code review quality, student stand-ups and study group sessions.
- Planned and hosted project week events such as kick-offs and demo days.
- Kept accurate records of student attendance and was responsible for reviewing retrospectives in order to identify and refer students who required additional support.

### Recruitment Consultant, Adecco, Peterborough

SEPTEMBER 2018 — DECEMBER 2018

### Marketing Assistant, Something Beckons, Peterborough

JANUARY 2018 — AUGUST 2018

# Education and Training

### Certified ScrumMaster (CSM), Scrum Alliance

MAY 2021 — PRESENT

I'm currently working towards becoming a Certified ScrumMaster through Scrum Alliance.

### Product Strategy, Reforge

MARCH 2021 — PRESENT

Reforge is an online professional community that offers growth-focused programs for people working in marketing, product, data, and engineering. I'm a member of Reforge and I'm currently going through the Product Strategy Program.

### Web Development & Computer Science, Lambda School

JANUARY 2019 — AUGUST 2019

Lambda School is a full-time, immersive and remote coding school. While studying there, my daily schedule included code challenges, live lectures, practice projects, and team stand-ups. You can view the curriculum here.

### A-levels, Stamford College

SEPTEMBER 2015 — JULY 2017

Biology, Chemistry, Physics and Maths
